PROGRAM 2010

Creative ideas for a sustainable design of our daily life will again be in the spotlight, this year by looking at „**Societies, Systems and Swarms**“. Introduced to the subject by a public **expert day**, the students will work together for several days in inspiring workshops conducted by well known institutions.

Sunday, August 29

- 16.00 meeting at Düsseldorf central station, transfer to the Nicolaus Monastery
- 19.00 round trip: Nicolaus Monastery
- 20.00 get together and introduction to the summer school

Monday, August 30

- 07.30 transfer to Cologne by bus
- 09.00 expert day with lectures and specific workshops, ecosign academy Cologne

SESSION 1

Prof. Dr. Jens Krause (Humboldt University, Berlin) +

Prof. Dr. Stefan Krause (University of Applied Sciences, Lübeck),

Swarm Models

To which extent can scientific swarm studies develop models for society and design?

Prof. Dr. Uwe Schneidewind, Wuppertal Institut,

Swarm Economy

Are economic swarm phenomena part of the problem or part of the solution regarding sustainable development?

SESSION 2

Prof. Dr. Johannes Weyer, Technical University Dortmund,

Swarm Technology

New modes of governance of complex systems in the era of autonomous technology. What are risks and opportunities of swarm structures for the human-technological interface?

Prof. Dr. Welzel, Universität Witten-Herdecke,

Swarm Sociality

What are immanent values, dynamics, and obstacles of climate cultures?

following round table discussion

- 17.00 Prof. Peter Wippermann, Trendbüro Hamburg, **Impulse speech**

Tuesday, August 31 to Thursday, September 2

- 09.00 reflections of the previous day
- 09.30 **workshops** (details on www.designwalks.org)
- 17.00 fitness and sport on interest
- 20.00 **evening talks** with:
Milica Reinhart and Marjan Verkerk, Artists
Conrad Wagner, managing director Mobility CarSharing from Switzerland

Friday, September 3

- 09.00 preparation of final presentation
- 14.00 final presentations
